SUMMARY:

The National Archives and Records Administration (NARA) proposes to revise its system of records on visitor services in its existing inventory of systems subject to the Privacy Act of 1974, as amended ("Privacy Act"). In this notice, NARA publishes the proposed revised NARA 39, Visitor Service System (VSS) Files (formerly Visitor Ticketing Application (VISTA) Files). NARA is revising SORN 39 to reflect a move to a cloud-hosted environment, which affects the system name, location information, and safeguards.

DATES:

This revised system of records, NARA 39, will become effective December 14, 2016 without further notice unless we receive comments by (printed page 76973) December 5, 2016 that cause us to revise it. NARA will publish a new notice if we must delay the effective date to review comments or make changes.

SUPPLEMENTARY INFORMATION:

The notice for this system of records states the record system's name and location, authority for and manner of operation, categories of individuals it covers, types of records it contains, sources of information in the records, and the "routine uses" from Appendix A for which the agency may use the information. Appendix B includes the business address of the NARA official you may contact to find out how you may access and correct records pertaining to yourself. You may find Appendix A and Appendix B on NARA's Web site at <https://www.archives.gov/privacy/inventory.html>.

The Privacy Act provides certain safeguards for an individual against an invasion of personal privacy. It requires Federal agencies that disseminate any record of personally identifiable information to do so in a manner that assures the action is for a necessary and lawful purpose, the information is current and accurate for its intended use, and the agency provides adequate safeguards to prevent misuse of such information. NARA intends to follow these principles when transferring information to another agency or individual as a "routine use," including assuring that the information is relevant for the purposes for which it is transferred.
