Digitization at the National Archives

With [NARA's strategic plan 2022-2026](#), NARA has committed to digitize 500 million pages of records and make them available online to the public through the [National Archives Catalog](#) by September 30, 2026. This goal will be accomplished, in part, by integrating digitization into the responsibilities of archival units nationwide and through entering into new public-private digitization partnerships.

In this section of our website, you will find:
